Office of the Chief

Kevin Hartman
Acting - Chief of Operations

Gregory M. Kozlowski
2nd Assistant Chief

Thank you for visiting the Mineola Volunteer Ambulance Corps website. At Mineola VAC, we consider public service a privilege. Our Department is recognized as one of the best emergency medical services in Nassau County and we take great pride in our reputation. We are committed to providing the people of Mineola with exceptional, pre-hospital emergency medical care 24 hours a day, 365 days a year.

The strength of our service lies in our personnel's commitment to excellence. In 2015, our team of highly skilled EMTs and Advance Life Support (ALS providers) responded to 1,189 calls and transported 997 patients to local area hospitals. Mineola VAC recruits and retains some of the brightest minds in the field of pre-hospital emergency medicine. We provide cutting edge training and are constantly challenging our members to further develop their skills. Our EMTs and ALS providers have the opportunity to build a life-long career in EMS and I am proud of our experienced, talented, and dedicated members. Mineola VAC is at the forefront of emergency preparedness as well as emergency response. Our personnel participate in drills with local, regional, and state agencies to ensure a coordinated response to any emergency.

The Department actively supports efforts to narrow racial and ethnic disparities in healthcare. Mineola VAC is committed to providing equitable, high-quality pre-hospital emergency medical care to all of Mineola's residents and visitors. Mineola VAC has a strong bond with the community and serves the Village with pride.

Thank you for taking the time to visit our website. I invite you to continue reading to learn more about the Department.

Sincerely,

Kevin Hartman
Chief of Operations
